Definition of Global Family Well-being Indicators

Keiko Hirao
Harvard University/Sophia University
Fundamentals of Social Sustainability

Children
Care and Share

Reproduction
Why “Sustainable”? 

... Because things are **not** Sustainable-able
Raw Material → Goods → Service → Labor → Market

Industrial Waste → ecological boundary

Goods, Service, Labor, Market
Where do the "Labor" Come?

Goods
Service
Labor
Market
Human Capital

Retirement

Labor Market
Flow of Material

- Environment
- Market

Flow of Human Capital (Labor Force)

- Market
- Family
What is good for Environment?

Environment

Market

What is good for Families?

Family

Market
